

ROMAN ANTON

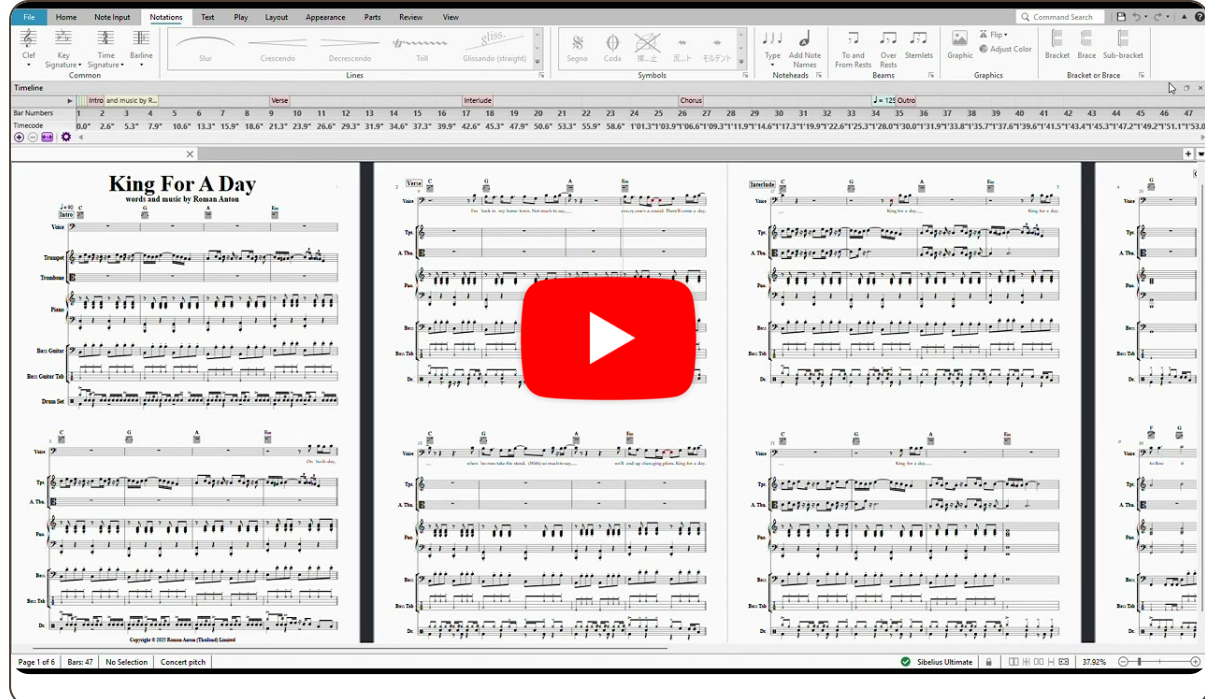

Roman Anton Newsletter #19: *Karaoke and Sibelius*

Hello everyone!

This month we will introduce you to Roman Anton Karaoke music. It's not really karaoke but we sell it on the website with that name. The Karaoke is actually our original music digitized. That means we don't have a voice, we make a digital tone for the vocal line. Instead of the actual instruments, we use digital sounds for drums, bass, guitar and other instruments. Instead of the actual song music it's a program version of the song. The software program we use is called Sibelius. So we also call our Karaoke tracks, Sibelius tracks. Here's what the program looks like.

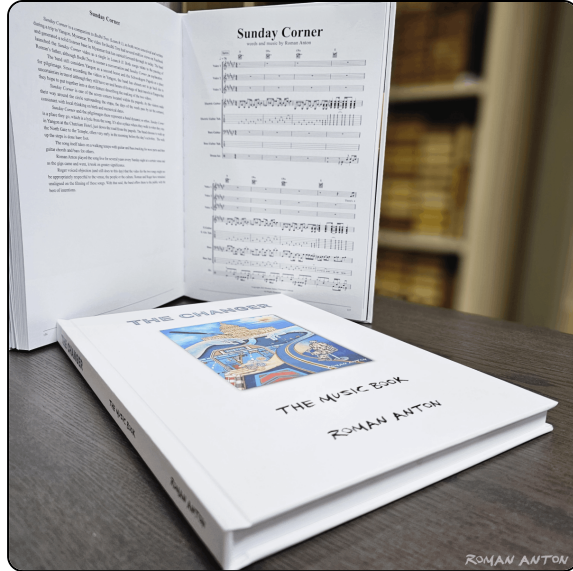

And here is how it sounds:

In the process of transcribing Roman Anton's songs into digital sheet music, we use the world-standard software, which again is called Sibelius. It doesn't just let us input notes; it allows us to recreate the songs with incredibly realistic sounds. Shogo Oyama, the Roman Anton band drummer, is also an expert on using and composing in Sibelius. He has taken our transcription to another level.

By organizing every part into visual sheet music, we gain a deeper understanding of the song's structure, which in turn brings even more depth to our actual performances. This transcription process—capturing the sounds we play and turning them into "living notes" one by one—is absolutely essential in shaping Roman Anton's music.

Please take a listen to our Karaoke (Sibelius) tracks. We hope you can feel how Roman Anton songs are constructed and how much life breathes within them. We include the sheet music in our Music Books for each Launch. We have over 90 transcribed songs in our 8 Launches of Music Books. You can see Launch 2, *The Changer*, below. The songs are *Sunday Corner* and *Crossroads*.

The Karaoke versions of the Roman Anton Launches 1 through 7 are available on line here: [Roman Anton Cassette Karaoke](https://romananton.com/karaoke). Launch 8 come out in 2027. The Roman Anton band has enjoyed making these Karaoke tracks over the years. They sound close to the original but because they are digital recreations the sound has a mechanical feel and deadly accurate rhythm. One of our friends from Japan said she likes to practice singing to the Karaoke versions. There it is!

We also sell our Karaoke songs on a "cassette" MP3 stick. Here is a photo of the MP3 Stick.

Roman Anton Cassette Karaoke

Roman Anton Cassette MP3 - Karaoke
Launch 1 Compilation
\$25.00 B

Roman Anton Cassette MP3 - Karaoke
Launch 2 Compilation
\$25.00 B

Roman Anton Cassette MP3 - Karaoke
